DATE MAILED:

Please find below a communication from the EXAMINER in charge of this application.

Commissioner of Patents

Please see the attached communication regarding applicants' response (filed 8/4/03) to the restriction (mailed 7/9/03).

Applicants' election of Group II without traverse is acknowledged. However, applicants have failed to elect species in accordance with the previous Office action. Two elections are required, i.e., (a) a specific compound and (b) a specific method such as one of the following: a method for treating Parkinson's disease, a method of treating rheumatoid arthritis, a method of treating multiple sclerosis, a method of treating encephalitis, a method of treating osteoporosis, a method for increasing a given population of hematopoietic cells or a method of prolonging the viability of an organ. (Note that absent from this list is a method of treating an inflammatory or autoimmune disease, as these are not specific).

The time for response (one month) is reset pursuant to this Office action. However, failure to elect species in accordance with the foregoing will result in ABANDONMENT of the application.
